BOARD OF TRADE.

We congratulate the Town on the renewed interest being taken in Board of Trade circles. The quarterly meeting on Friday last was well attended, and some important business was transacted. Resolutions were passed asking the Government to provide reasonable accommodation for newly arrived settlers, as well as an agent to look after them on their arrival. The importance of these requests can hardly be overlooked by the department. Another resolution of equal, if not greater importance, was one calling the attention of the Advisory Council to the necessity of immigration bureaus being established at eastern points, similar to those already operated by Manitoba. The council have already acknowledged the importance of such a move, resolutions from different Boards of Trade throughout the Territories will strengthen their hands when making application for an increased grant from the Dominion for immigration work. An important suggestion was also made by a sub-committee respecting a local intelligence office being opened as early as possible.

The president did wisely in having the old by laws revised and consolidated in time for the regular meeting to pronounce upon. With few exceptions his suggestions were accepted, and as a result of his energy the corporation is now on sound footing. New members are being enrolled, many old ones are renewing their connection, and everything points to a successful years' working under the active presidency of Mr. Davis. Every business man, regardless of the particular branch of trade to which he may belong, should now turn their attention towards assisting him in carrying on the work he has so successfully reorganized.

OUR GOVERNMENT.

Rumor has it that the Advisory Council will shortly press upon the Federal Government their views respecting immigration and other important questions affecting government in the Northwest. We trust the Council will not lose sight of the importance of the questions raised. The members of the Assembly are unanimous on certain questions, all believe that the Assembly should have control of monies set apart for territorial development, but a wide difference of opinion exists among them as to the wisdom of the Territories being granted full provincial autonomy with but one Legislature. The great majority of the people are also opposed to such a system at the present time, and division of opinion on this same question is known to exist in the Advisory Council. United on most other important questions, it would be strange indeed were the Council not able to decide on and secure from the Dominion authorities some system which for a time would not only suit the people but would be acceptable to the members of the Assembly. No new system will be satisfactory to the more isolated sections of the country, which does not contain a distinct finally clause as to the length of time the system must run. Agitation such as we have witnessed during the past two years serves no purpose, and the less populated districts are constantly in donbt as to the parts they may any day have to play in legislative affairs. We believe a great future is in store for our country, so great will be its development within the next few years, that before a system of full Responsible Government with our Legislature could get anything like established, it would find itself unable to satisfactorily attend to the divided interests and other intricate questions which are bound to present themselves. When that time does come, and we believe it to be not far in the future, a division of the present territory will be imperative. No obstacles to such a division must be permitted to creep into the act through amendments which may be suggested during the next session of parliament. The public will watch with interest for further information as to the nature of the demands which the Council may make in making.

In the matter of immigration the action which the Advisory Council may press on the Federal authorities should be considered of even greater importance than our system of government. The situation of the Territories to day is not satisfactory large sums of money already spent by the Government has not brought the corresponding increase of population which should have been the result under proper methods of expenditure. Millions of acres of our valuable lands are yet unoccupied. The C.P.R. are daily hauling trains loaded with settlers and their effects, all bound for Washington Territory, a country in no way equal to our own either for ranching, mixed farming, or wheat growing. Our Local Government is in no position at the present time to undertake the task of turning the tide, and the opinion of the Minister of Agriculture is that it would not be expedient for the Federal authorities to place it in such a position. While not undertaking to demonstrate the absurdity of some of the Minister's reasons for reaching this conclusion, we calll the attention of the Northwest and Manitoba members to the fact that a similar opinion does not prevail among such important bodies as the boards of trade throughout the Territories. They claim that the expenditure hitherto has not proven of any great advantage to the country, and that the $150,000 voted last year was for the avowed purpose of peopling the Territories. Boards of Trade viewing these questions from a practical rather than from an expedient point of view, are backing up the memorial passed in 1889 by the Legislative Assembly, and urge the importance of local representatives being granted control of a good proportion of the immigration vote. Western members should heed the suggestions of these organizations composed of men who, being free from the exigencies of party, are in a position to reach most reasonable conclusions respecting our situation. We urge upon the Advisory Council the importance of again pressing upon the attention of the Dominion Government the necessity of the Assembly controlling a portion of this grant, and we feel satisfied that if the western members back them up the government can be convinced of the wisdom of conceding to the demand, and next year will find local authorities well equipped grappling with the immigration problem, which above all others is of most importance to the country.

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that **it is warranted to break up the most distressing cough in a few hours' time**, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

London, April 2.—The Roman correspondent of the London *Times* says that the Italian ministry recognizes that it is impossible for the American Federal Government to institute legal proceedings in Louisiana; but the ministry feels obliged to formally protest against the illegality and outrage of the New Orleans assassination. There is no disposition on the part of Italy to increase the difficulties of the Federal Government, and confidence is felt that friendly relations will be renewed.

Paris, April 2.—Dom Pedro, ex-Emperor of Brazil, accompanied by his daughter Isabella, Countess Deu and his grandson, has visited Queen Victoria at Grasse.

Stewart, staff commander of Boulton's hydrographic survey, left to day for Vancouver with the nucleus of a crew of trained men to commence a survey of Burrard Inlet on the Pacific coast for the purpose of making a correct chart for the use of Canadian Pacific and other large steamers. The work will last all summer. He will pick up the balance of his crew there.

Kingston, April 2.—Capt. Gaskin, manager of the Montreal Transportation company and one of the largest handlers of grain in Canada, says the outlook this spring for lake trade is blue. Owing to reports last fall of frost in Northwest wheat not much of it was stored, but it was kept moving eastward in cars; therefore, there is little now to come down by vessels. Vesselmen do not expect to do much until after next harvest.

Montreal, April 2.—It is rumored a syndicate of English capitalists are secretly making arrangements to re-open the Action vale copper mines which for the past ten years have been lying idle.

The telegrams of congratulation numbered three thousand six hundred and included one from Kaiser William and one from Prince Henry, the Kaiser's brother. In the evening a great torchlight procession marched up to Friedrichsruhe. The Prince met the paraders at the gate and made a short address to them.

London, April 2.—Thos. C. Baring, head of the limited company which succeeded Baring Bros. & Co., died to-day. Consols declined ¼ on the announcement. Mr. Baring contributed 1,000,000 pounds to the capital of the company.

Washington, April 2.—The President has decided to start on his trip to the Pacific coast on Tuesday, April 14th. The itinerancy of the tour will probably be given out to night. This decision of the President is thought to be conclusive evidence that the Fava affair is not deemed of serious importance in administration circles.

New Orleans, April 2.—The grand jury has found three indictments in blank, two against Seligman and Borsen for bribery, and three against O'Malley for conspiring to bribe. Seligman is in Cincinnati. Borsen is here and O'Malley's whereabouts a mystery, though it is understood he is in Christina, Lake Shore, within one hundred miles of New Orleans, surrounded by a heavy guard, which he has had since the killing of the Italian prisoners.

Washington, April 2.—Secretary Noble to-day positively denied the published statement that General Raum would soon retire from the pension office because of alleged dissatisfaction with his management.

Washington, April 2.—Late advices from the Argentine Republic announce that the agents of Baron Hirsch have purchased 400,000 acres of land near Santiago Del Estero, Argentine Republic, upon which to place colonies of Jews.

New York, April 1.—Advices from Brazil report that the purchase of the entire plant of the Amazon Steam Navigation company by the Brazilian corporation, Empreza De O'Beas publicas has been completed. The price paid was £850,000. This transfer from British to Brazilian hands of between 80 to 100 steamers, together with landings, officers etc., is of the utmost importance both to Brazil and to this country. It sweeps away at one blow British influence and control of transportation facilities in the interior of Brazil. The corporation which made the purchase is the same which has lately been purchasing all the Para rubber crop with a view of controlling the market.

New York, April 2.—Up to noon to-day 168 deaths were reported during the 24 hours preceding that time. Of this number 10 resulted from grippe symptoms—5 males and 5 females. This makes 56 deaths from grippe in two weeks.

Washington, April 2.—Postmaster General Wannamaker to-day had an interview with the Venezuelan and Chilian Ministers in regard to the carrying out of the postal subsidy act. He expects that new lines of steamers will not only start from northern ports for those of South America, but also from the gulf ports. The result is expected to be a great increase in ocean carrying facilities, and consequently a great increase of trade between the United States and South America.

Ottawa, April 2.—Gen. Herbert intends leaving for Halifax shortly where he will enquire into some irregularities which took place in that district recently.

London, April 2.—Her Majesty's Government has opened communication with Mr. Lincoln, the United States Minister, with a view to obtaining his advice and guidance in the selection and organization of the British commission which it has been decided to send to the World's Fair at Chicago. Minister Lincoln will shortly hold a conference on the subject with Lord Salisbury, who has shown every disposition to forward England's participation in the Exhibition.

Montreal, April 2.—The degree of D. C. L., has been conferred by Bishop College upon Judge Tarte of the Supreme Court.

LOCAL HAPPENINGS

In Our Midst.

Buy your spring Hats from F. C. Baker.

Mrs. J. McCall left by Monday's train on a vist to friends in Ontario.

The by-laws of the Board of Trade should be printed.

The appearance of the ice on the river betokens an early breaking up this spring.

Hurd & Nelson are pusing the work along rapidly on Sproat & MacLeod's addition to their store.

We lead, others imitate. So say Betts & Gwynne. Give them a call and see for yourself.

A complete assortment of Goods has just been received by F. C. Baker.

W. Plaxton, M.L.A., was in town yesterday. He informed us that he would commence seeding to-day.

The changeful weather now denotes
That spring her forces muster;
One day he use his overcoat,
The next his linen duster.

Capt. Craig, of St. Catherines, came into town Monday. The captain informs us that seeding operations in his locality will be commenced immediately.

The roads this spring are drying up very rapidly, and in a few days wheeling will be in first-class condition. The jingle of the merry sleigh bell is heard no more.

A look through F. C. Baker's store will convince anyone that he has the Goods and the prices to suit the times.

The city dads met in solemn conclave last Monday evening. The council this year, are working very harmoniously together, and business is the order of the hour.

Wm. Shannon, the boot and shoe man, invites you to call and inspect his spring and summer stock. The largest of the kind ever shown in the town. See his advertisement.

W. Tait brought his large herd of cattle across the river from their winter quarters on Monday last. The band—which numbers some 150 head—are in excellent condition.

The Golden Lion has just received a large consignment of millinery, dress goods, etc. Give them a call, and Sproat & McLeod will satisfy you as to prices. Read their advertisement this week.

Seeding has commenced in this district. Mr. Geo. Thompson of the creek, sowed and harrowed a field of wheat on Monday last, the 6th inst. This is the earliest seeding we have heard of as yet in this locality.

D. J. Gunn, builder, has commenced work on the extension to Mr. W. Tait's store on River Street. The addition will be one storey high, thirty feet in length and twenty-four feet wide. When completed, this building will make a very fine store.

Couns. J. R. McPhail pulled out on Monday last for an extended trip—business and pleasure combined. Mr. McPhail intends going as far as the coast, and will visit all the principal towns and cities in British Columbia before returning. We wish him *bon voyage*.

Mr. Wm. Miller, sr., immigration agent for this district, left Monday morning for Winnipeg. On arrival there he will, to a great extent, use his own judgment as to what course he will then pursue. Mr. Miller should have been down there months ago. He will now have an up hill task before him.

Mr. R. J. Pritchard brought his band of cattle in from his ranch on the north side of the river to-day. This large band are looking exceedingly well, evidently having put in a well fed and cared for winter. Mr. Pritchard will remove them at once to his farm at the creek.

Mr. Bigar, the Electric Light Co. agent, has done the town pretty thoroughly in the interest of his company, and we understand has secured sufficient encouragement to induce him to go on with the work of putting in the necessary plant. He expects to have everything in readiness early next fall.

Mr. C. Mair, of our town, returned home Saturday evening, after a lengthy visit down east. While absent, Mr. Mair visited the principal towns and cities of Ontario and Quebec, and we are pleased to say thoroughly enjoyed his visit. Miss Mair, who had been on a visit to her aunt Mrs. R. J. Hart—returned at the same time.

We learn that Dr. Klumm, who paid this district a visit last season in the interests of immigration, has been heard from. Last week Mayor Johnson received a marked copy of a German paper from that gentleman, which paper our worthy Mayor has forwarded to capable parties for translation. We await further particulars.

E. X. L. Coffee and Y. H. Tea is the best in the market, you will find it at F. C. Baker's.

Our old townsman Mr. D. J. Campbell, arrived back in town last week, after a long sojourn in the east. Mr. Campbell's intention on leaving Ontario was to go into farming in this district. He brought out with him some first class horses, amongst which are five beautiful Clydesdale mares, some of which he is prepared to dispose of. He also brought out a magnificent French Canadian stallion—French Chief. This horse is eight years old, sixteen hands high, and weighs 1,500 pounds. He is a beauty. It is Mr. Campbell's intention to travel him during the coming season.

All lovers of music in Prince Albert will be glad to hear that we now have a glee club. The club will be known as the "Apollo Club," and will meet for practice at least once a week. Music has already been ordered, and as the club contains some of the best voices in town, and intends canvassing for a still larger membership, prognostications point to some fine warbling. Mr. Cann has kindly consented to organize a small orchestra in connection with the club. The officers of the Apollo Club are:—President, J. E. Young; Musical Conductor, E. J. Cann; Secretary-Treasurer, L. J. Clarke. Executive Committee, J. L. Johnson, J. M. R. Neely and C. S. Barwell.

Some predict that the great change in the fashioning of the clothes which are to be worn by women this coming season is the most wonderful victory of the nineteenth century—if fashion leaders can be induced to adopt it, and appear just once in public so arrayed. Men will hold their breath in wonder at the marvelous change it makes in lovely woman. "Few of the fair sex can help being beautiful in these glove fitting costumes," says a writer in a recent number of the *New York and Paris Young Ladies' Fashion Bazaar*. "This magazine is the only one in Europe or America which makes a specialty of giving those inclining to stoutness an unrivaled appearance of sculptured slimness," said Her Royal Highness the Princess of Wales. Madame Patti has ordered from the Paris house four magnificent costumes, the designs of which appear in the April number of this Fashion Bazaar—and in this magazine only. Mrs. Harrison is greatly fascinated with the exquisite gem, costume No. 4, in the April number. It is expected she will give an order for an exact counterpart of it, the whole front of which will be incrusted with pin-head diamonds. This gown alone will be worth a king's ransom.

WEDDING BELLS.

On Thursday evening last, St. Alban's church was the scene of a happy event, the occasion being the marriage of Mr. R. S. Cook, Crown Timber Agent of this district, to Miss McLean, youngest daughter of the late Dr McLean, Lord Bishop of Saskatchewan. The interesting ceremony was performed by Ven. Archdeacon Geo. McKay, brother-in-law of the bride. Rev. Canon Flett, also a brother-in-law, gave the bride away. Mr. J. M. R. Neely assisted the groom, while Miss Cook, Misses Daisy and Dotty Flett, performed a similar duty for the bride. After the marriage ceremony, the company adjourned to the residence of the bride's mother, where a sumptuous repast had been prepared, and a goodly number of the friends and relatives of the contracting parties spent a most happy evening. The young couple have our most hearty wishes for their future welfare.
